

VELTEKO

Vertical packaging
machine

DUPL **PLEX-360**

Double
tube versions
of VELTEKO vertical
packaging machines
will provide you with

DOUBLE

the packaging speed in the same
footprint, half the cost of product input
and increased machine
operating efficiency.

Max. speed
of **400**
bags/min.

5 bag
types on
1 machine

5-45 min.
machine changeovers
to another bag type

Easy machine
operation

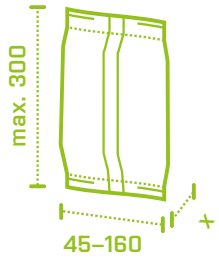

VELTEKO
Dataservice
for remote
communication
with machine

Trouble-free
maintenance

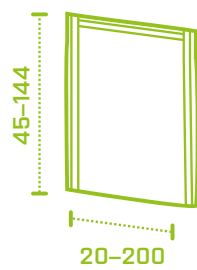

5 bag types on 1 machine

The dimensions are in millimeters.

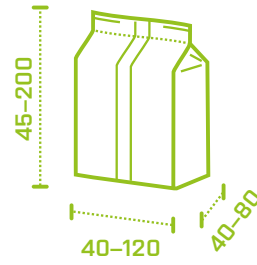

Pillow bag

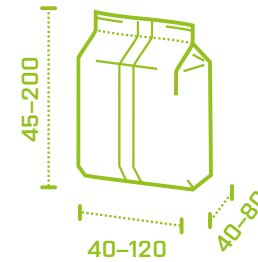

3S bag

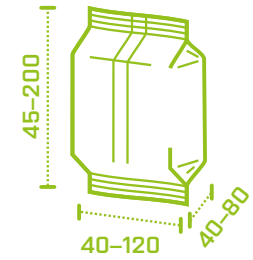

Corner creased bag

Flat bottom bag

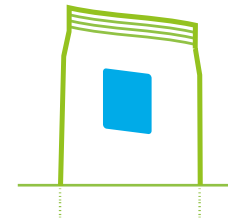

Gusseted bag

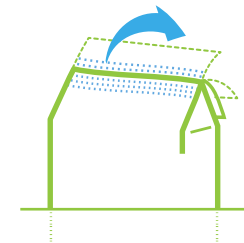

Modifications for expanding bag functions

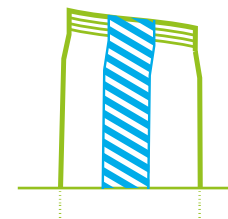

Label

Reclosing flap

Advertising tape

Dataservice OPC

Trouble-free maintenance

- ▣ Dataservice support
- ▣ Service interval monitoring according to machine type
- ▣ Extensive self-diagnosis and monitoring
- ▣ Adjustable access rights to individual controls
- ▣ Plug-in sensors allow for easy replacement
- ▣ Interactive manual and parts catalog for specific machine configuration
- ▣ Automatic seal check of pneumatic components
- ▣ VELTEKO service center support

Easy machine operation

Graphic interface for intuitive setup of machine operating parameters

- ▣ Industrial computer with a large color display
- ▣ Intuitive control using icons or buttons with text descriptions
- ▣ Support for selecting operating parameters
- ▣ 500 memory settings for operating parameters (programs) with export and backup capability
- ▣ Possibility of automatic program selection by scanning the bar code
- ▣ Identification of machine operator by card or RFID chip
- ▣ Machine manual, wiring diagram, etc. on the terminal
- ▣ Image manager - import, export, delete images on the terminal and take a picture with the on-board camera
- ▣ Video Manager - Possibility to upload and play video files
- ▣ Extensive help section
- ▣ Dataservice Visual

Dials and scales

All manually set components are equipped with dials or scales to ensure repeatable settings.

Dosers suitable for the double tube version of DUPLEX-360 vertical packaging machines

DOS3D

up to **240** doses/min.

DOT3D

up to **360** doses/min.

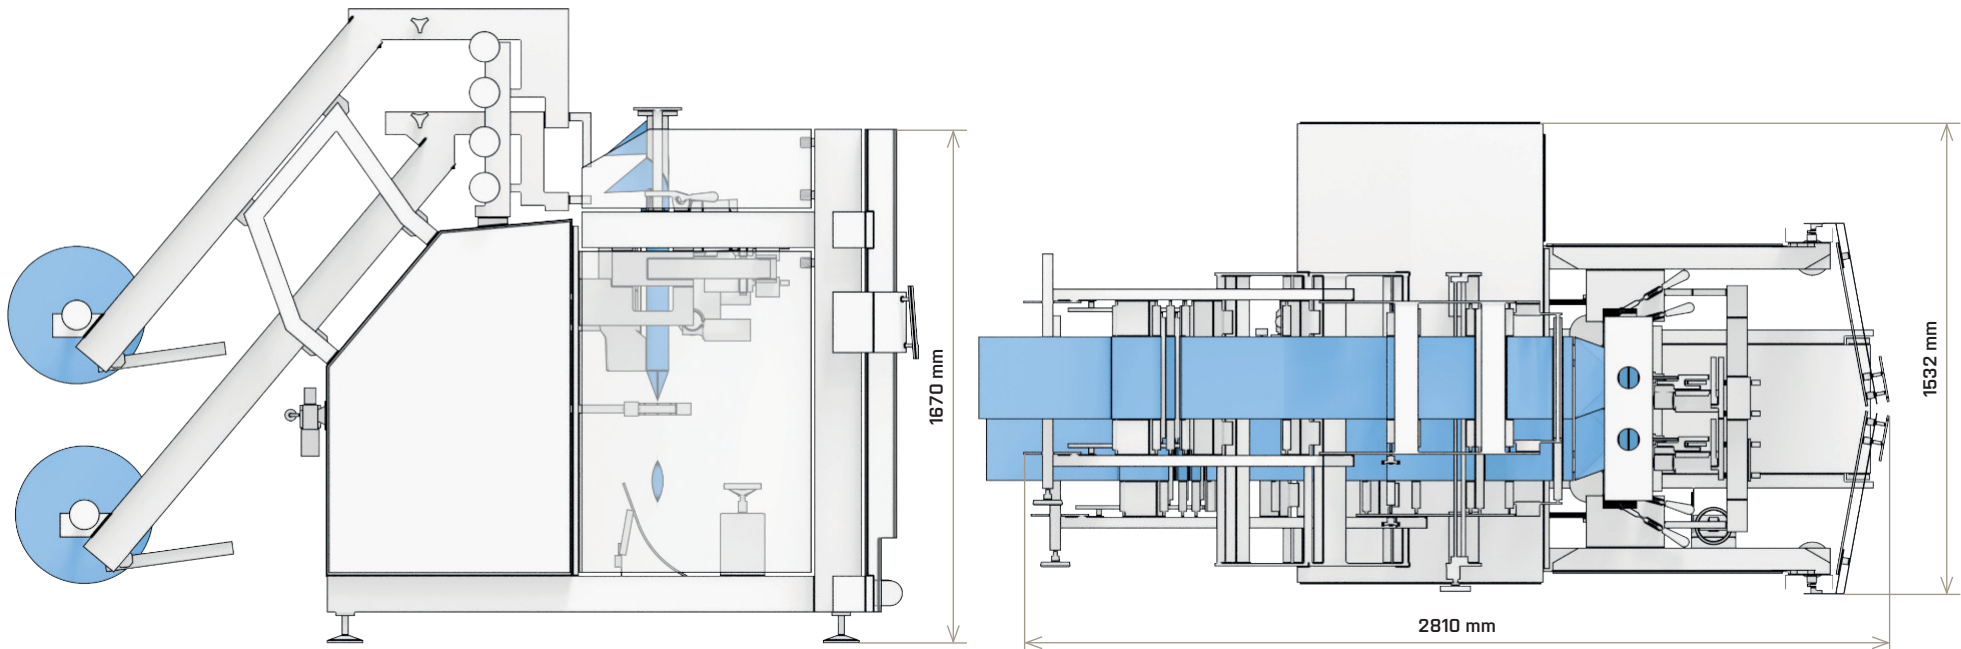

YAMATO

up to **400** doses/min.

Technical specifications

- ▣ *Robust, sophisticated modular design for high reliability and a long machine life*
- ▣ *Quality materials and branded components from world-renowned manufacturers*
- ▣ *A powerful industrial computer controls all machine functions*

DUPLEX-360	
Operational mode	Continuous
Max. speed	Max. 400 bags/min
Max. length of cross weld	160 mm
Max. width of film	340 mm
